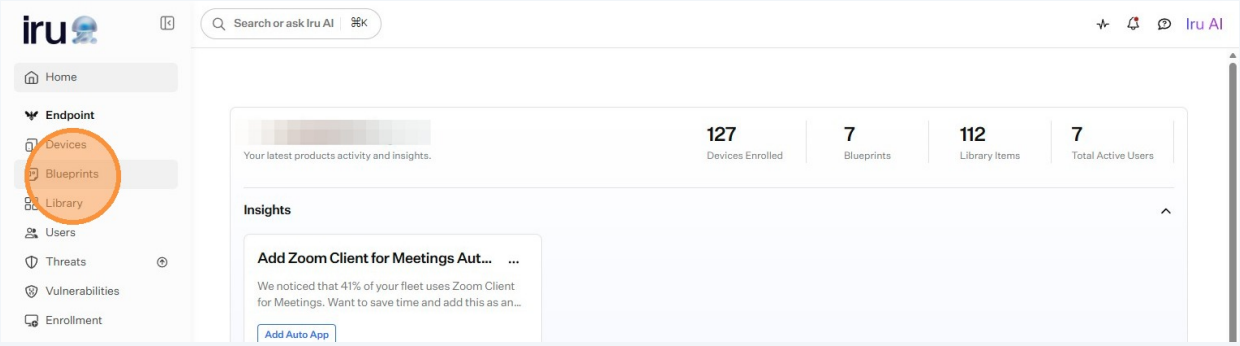
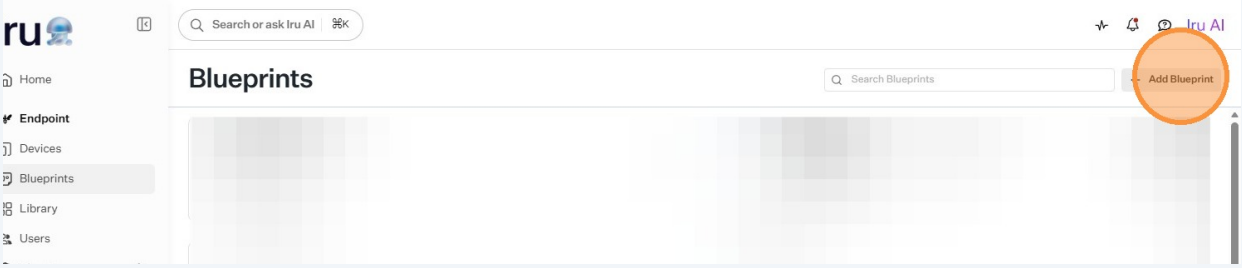
How to Create a Blueprint in IRU/Kandji

This guide covers the essential steps to create new blueprints in IRU/Kandji MDM.

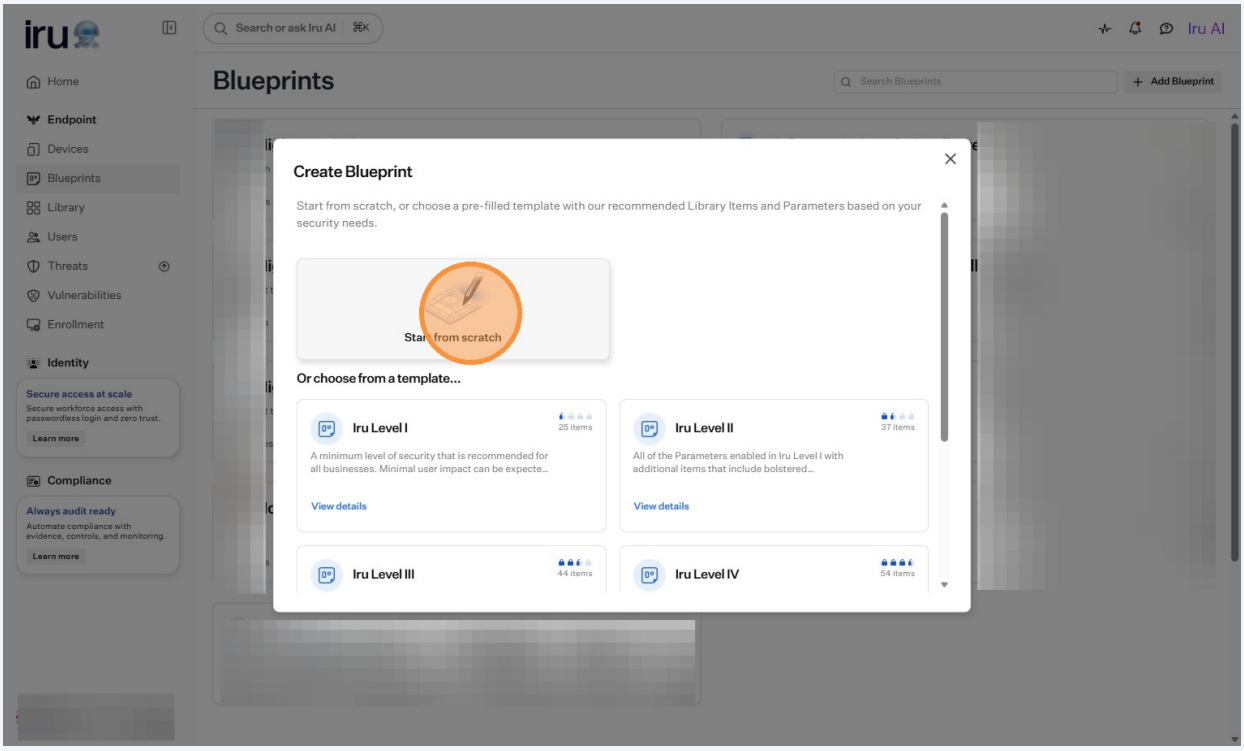
1 From the Home Page, Click Blueprints.



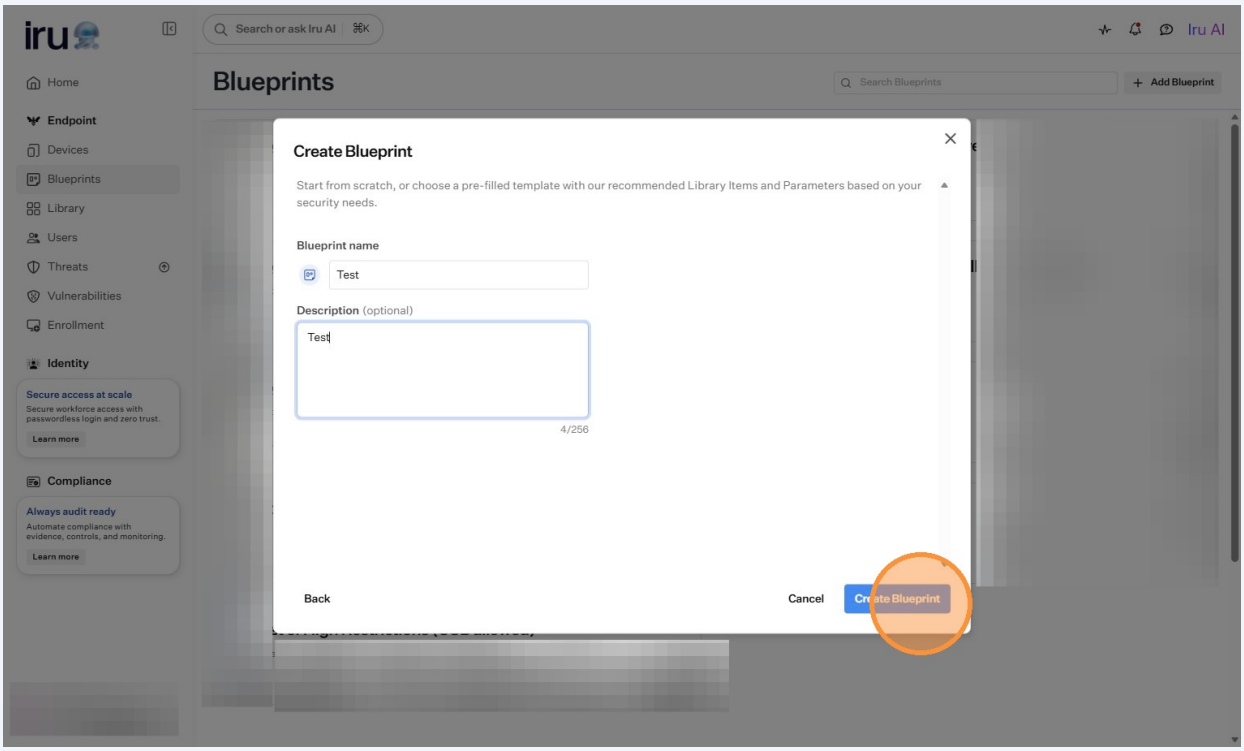
2 Click "Add Blueprint"



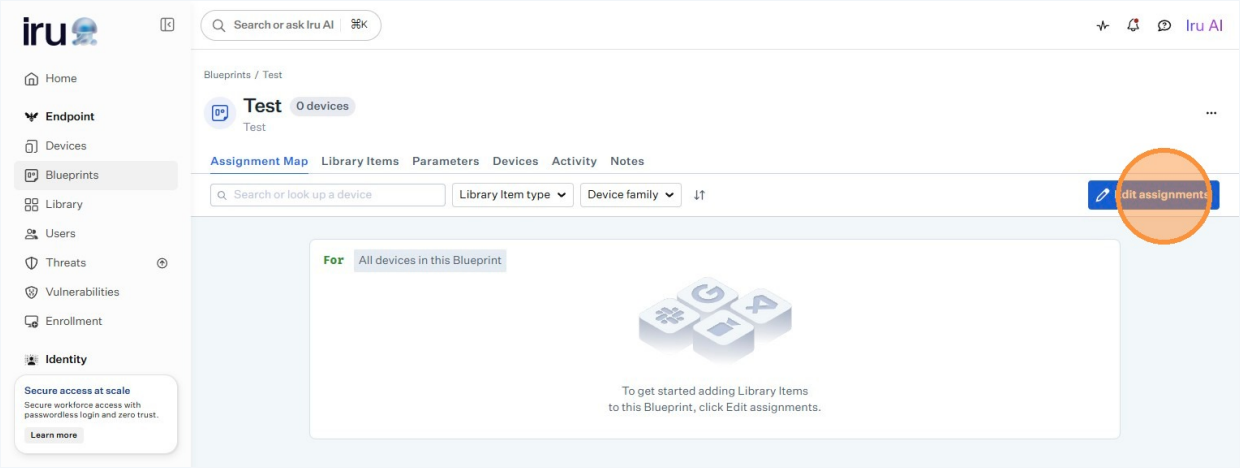
3 Click 'Start from scratch'



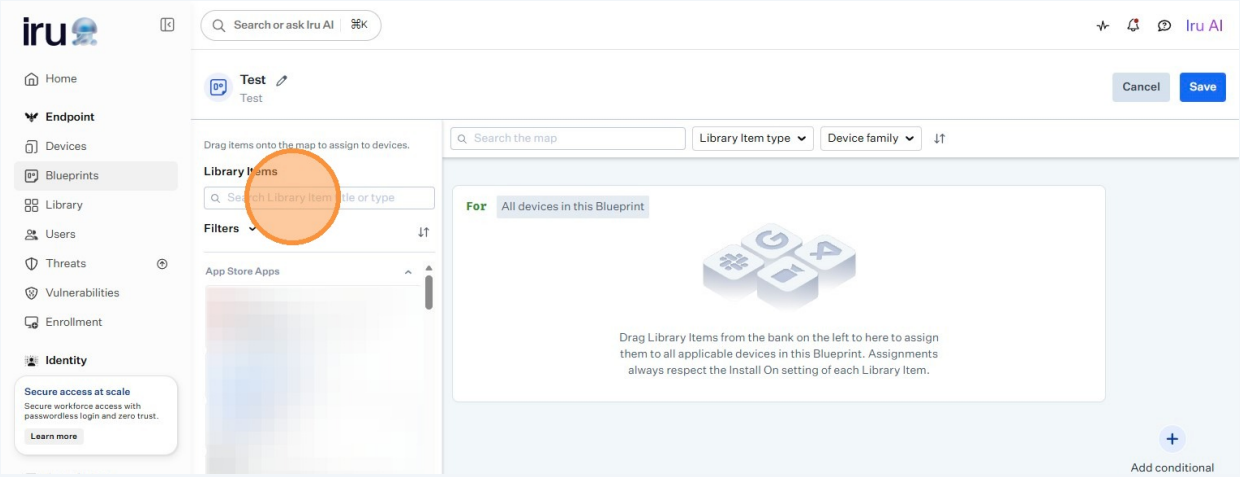
4 Edit name and Description and Click "Create Blueprint"



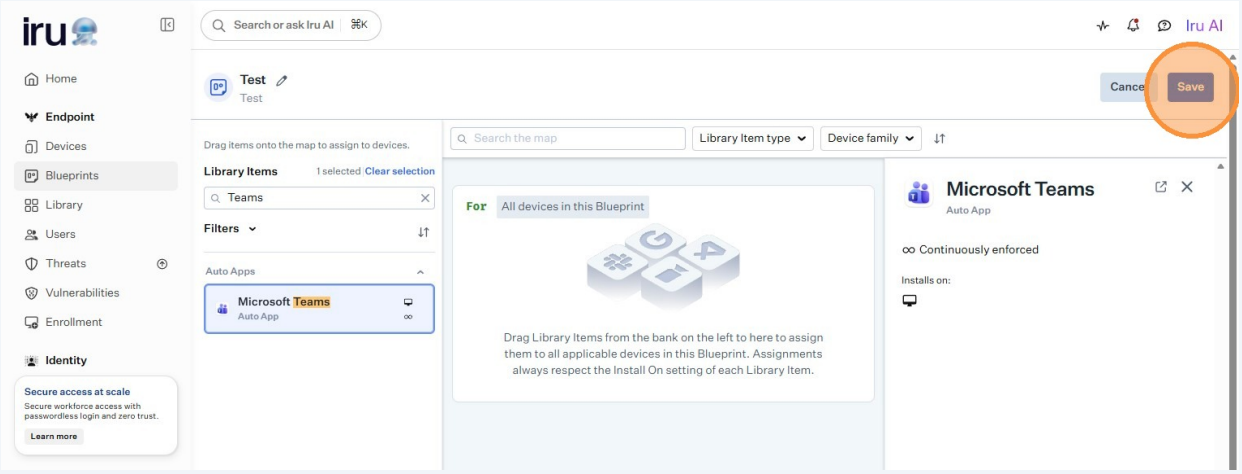
5 To add an app, click "Edit assignments" in the Assignment Map



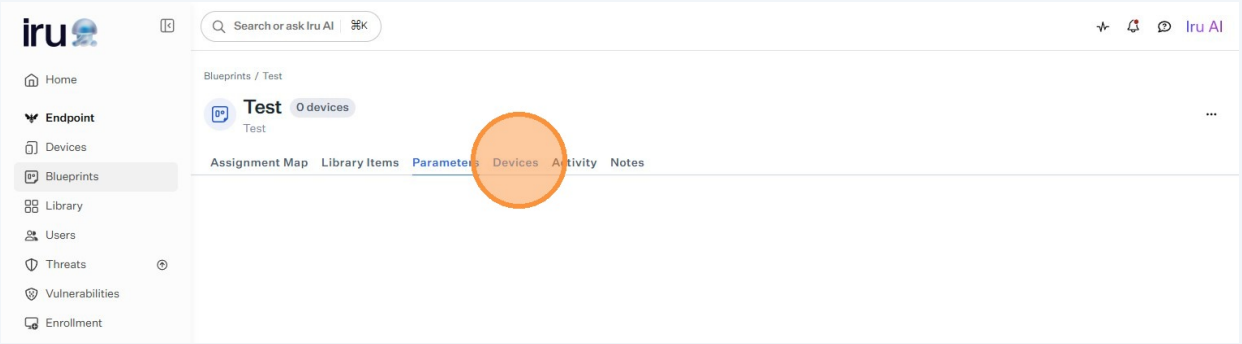
6 Click the "Search Library Item title or type" field.

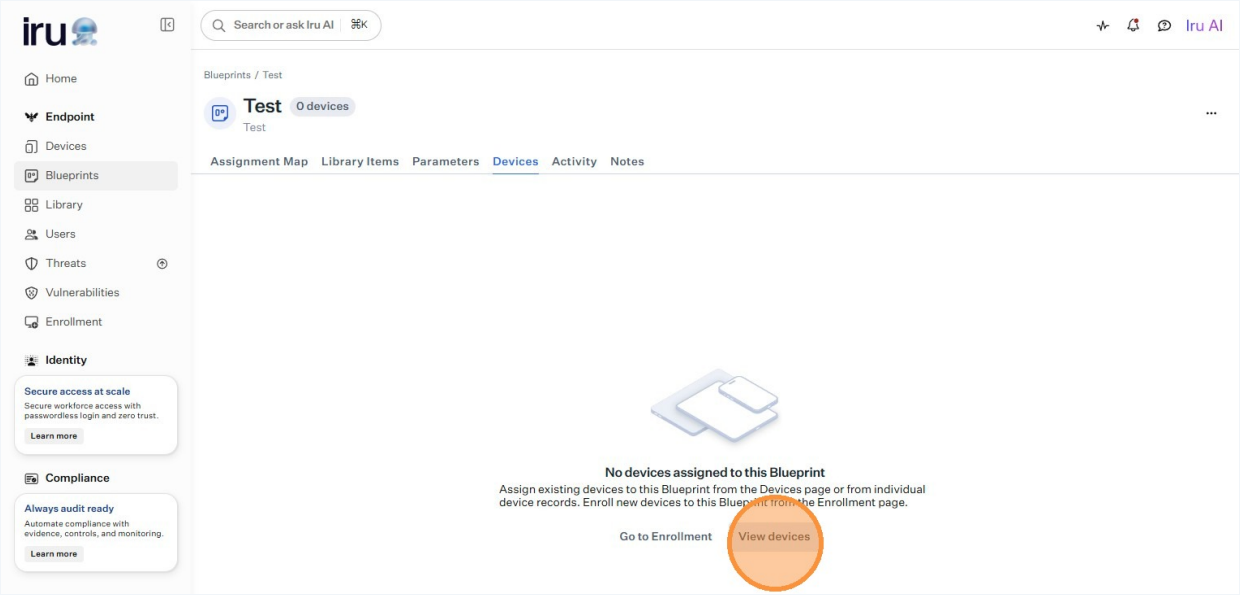


7 Search for the app you would like to add and Click "Save"



8 Click "Devices"





9 Click "View devices" to view or add the devices in the blueprints
