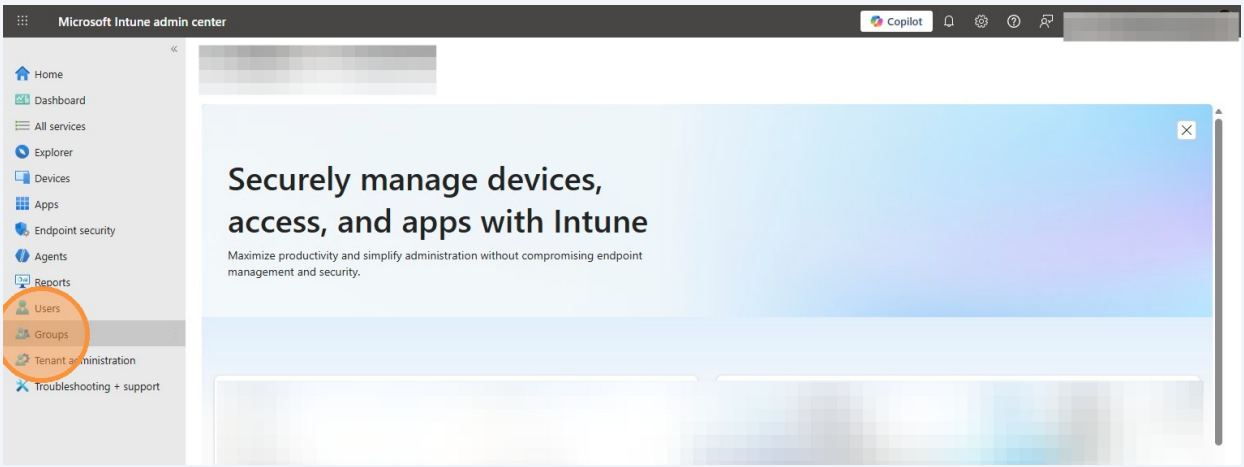
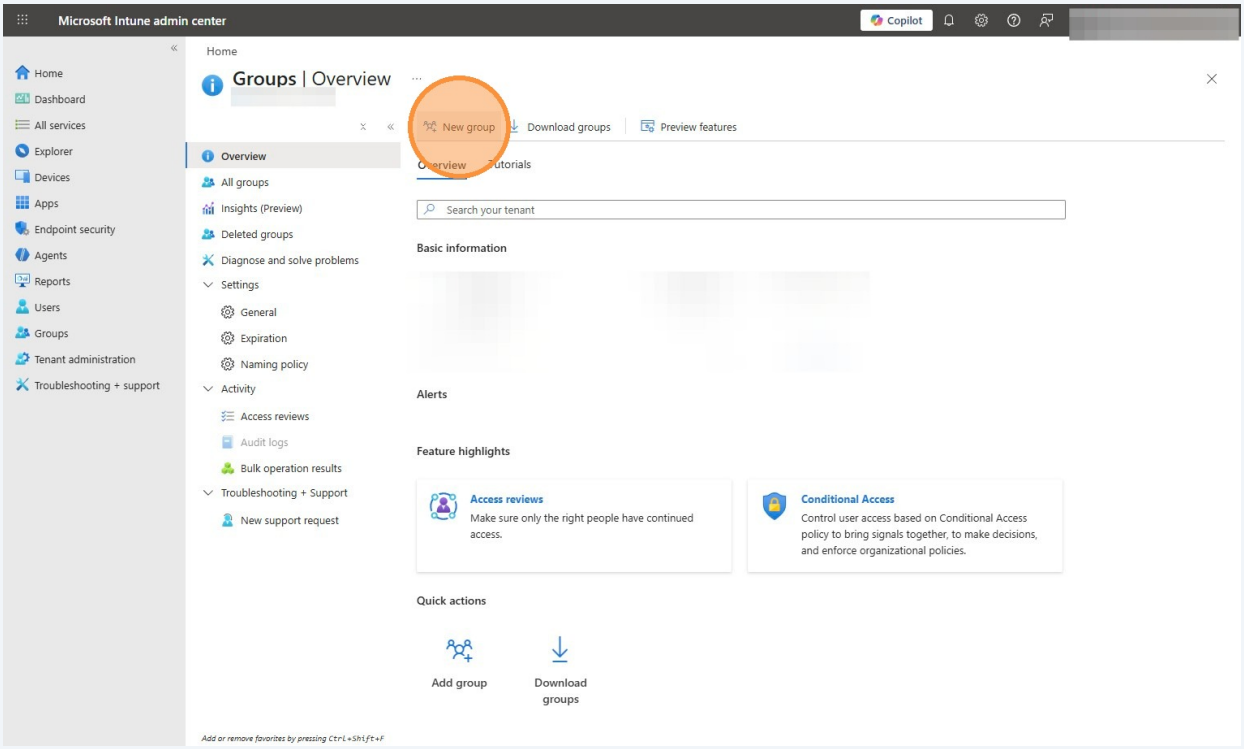
Create a Security Group in Intune and add Members

Learn how to create a new security group in Microsoft Intune and add members to it. This guide walks you through the essential steps to manage your Intune groups effectively.

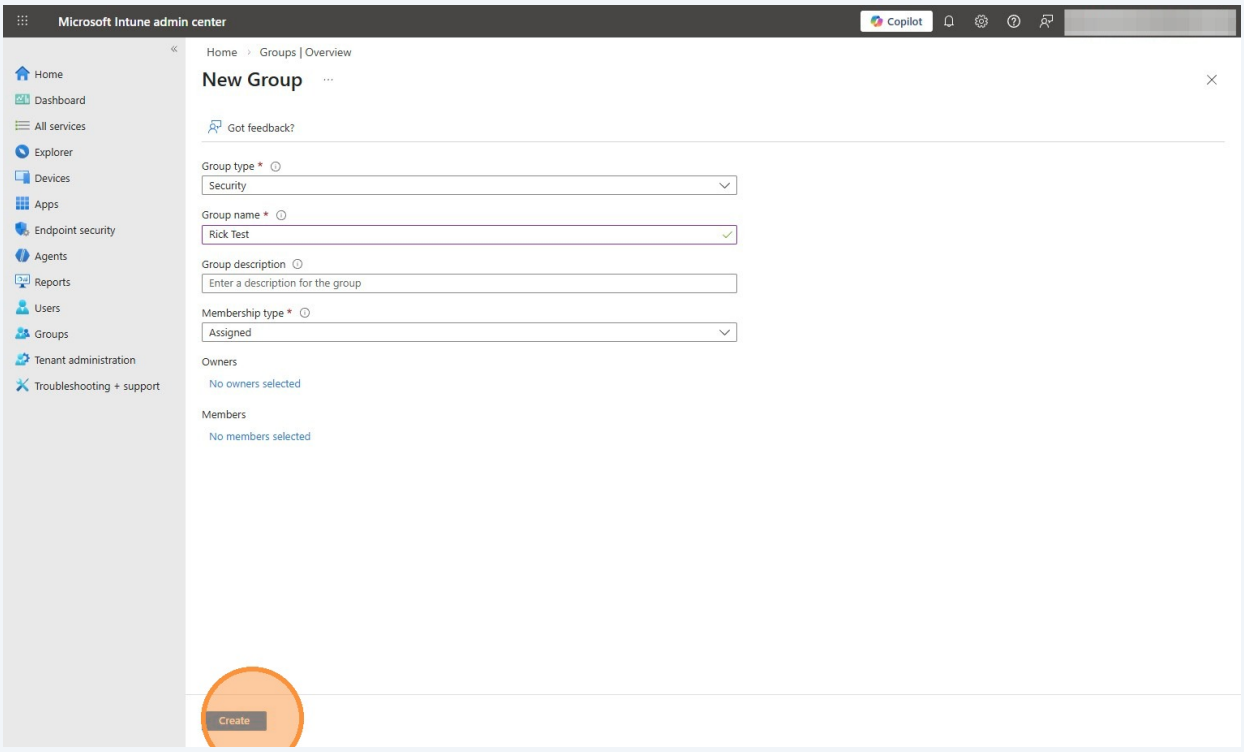
1 Click "Groups"



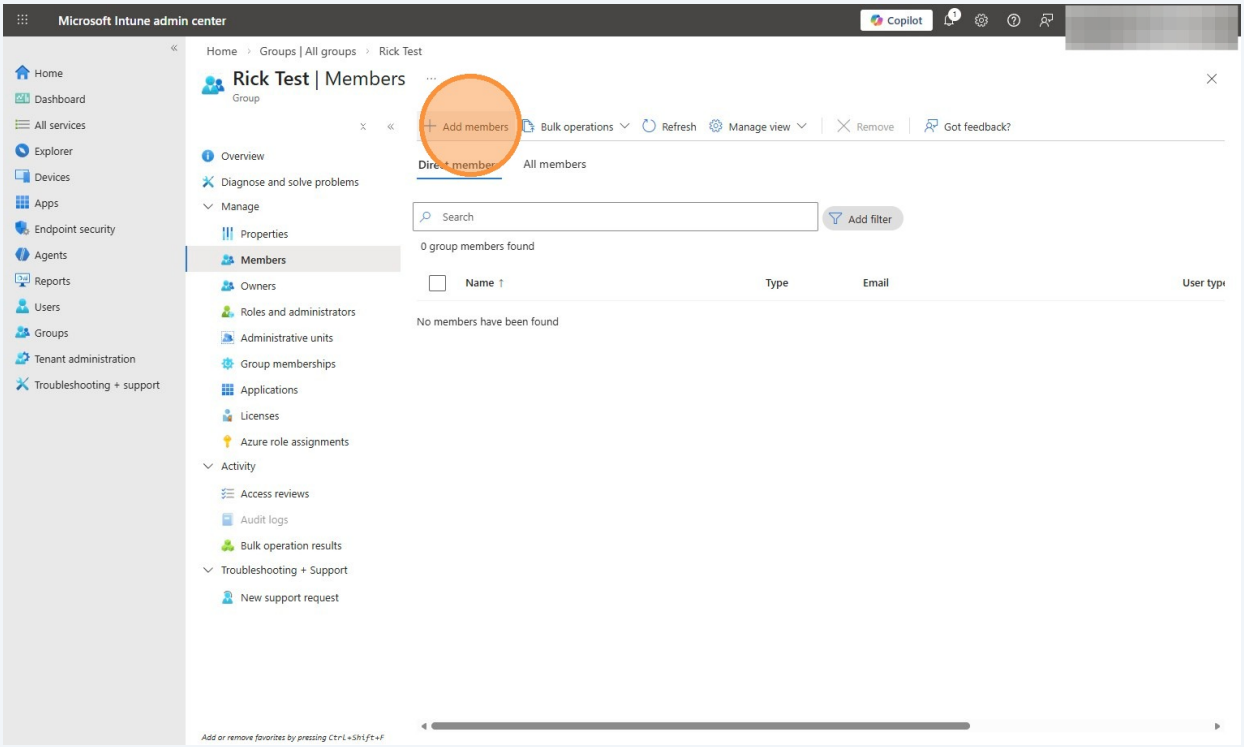
2 Click "New group"



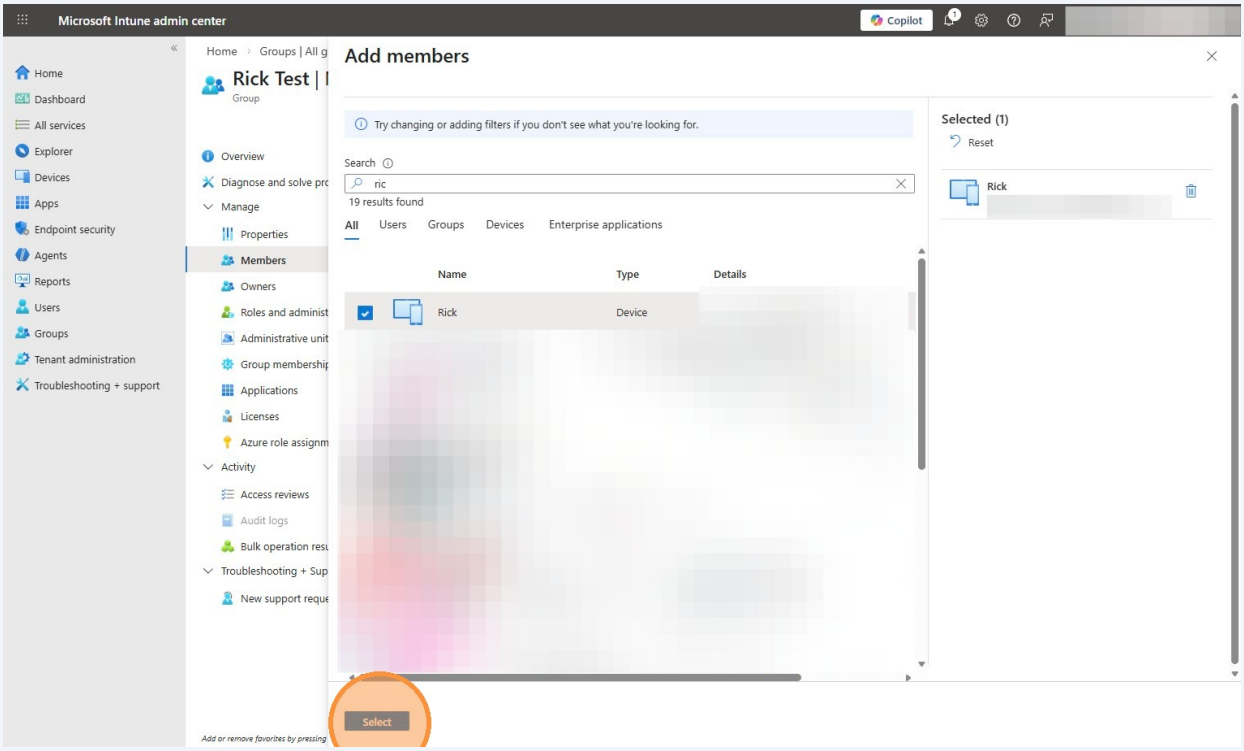
3 Enter a group name and Click "Create"



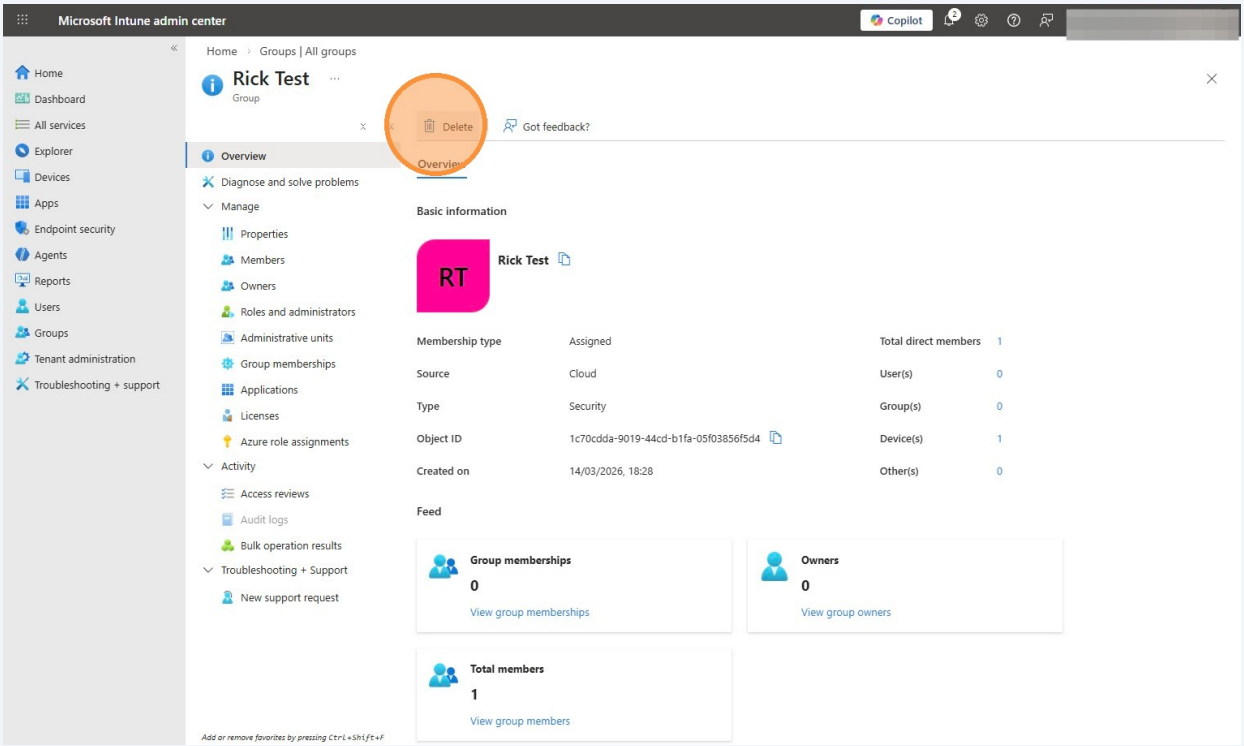
4 From the overview menu, Click on "Members" followed by "Add members"



5 Search and select the members You would like to add and Click "Select"



6 Click "Delete" from the Overview to delete the group.



7 Click "OK"
